Robin / Flycatcher Box
Code:001

Suitable for the Robin, '*Erithacus*', member of the thrush family or the (spotted) Flycatcher, '*Muscicapidae*', can be spotted as it 'hawks' its insects. The box has to be hung in a sheltered surrounding, f.i. behind a tree.

Voice: '*singing*'

A triangle shaped 'open cup nest' box. Can be positioned on the ground, wall, in trees or on a cliff ledge (predator dependent).

A simple sliding bottom for cleaning; extremely durable.

£24.50

Great Tit Box Code:002

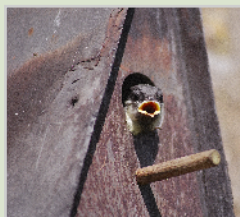

Suitable for the Great tit, '*Parus Major*'; helping to avoid caterpillar damage in apple trees, i.e. chicks need 100 a day.

Voice: '*... teacher, teacher...*'

A triangle shaped 'round hole -32mm' nesting box. Can be positioned every 10m at varying heights (predator dependent). It will also attract other birds.

A simple sliding bottom for cleaning; extremely durable.

£24.50

Blue Tit Box Code:003

For the Blue tit, '*Cyanistes Caerulens*'; recognised by its Azure blue crown with a dark blue line through the eye.

Voice: '*...teeteetee...*'

Similar to the Great Tit box, but with a 28mm- hole. Tits are very agile and will hang from everywhere. They roost in trees, walls or in our boxes.

A simple sliding bottom for cleaning; extremely durable.

£24.50

Tree Creeper Box Code:042

For the 'Certhiidae'; a small bird that often climbs in a 'helical' path up/down the tree, probing the bark, for insects like spiders.

Voice: a thin high pitch

A triangle box with two openings on either side towards the tree; one is used as an entrance, the other as exit!

A simple sliding bottom for cleaning; extremely durable.

£34.50

BTO approved

Barn Owl Box Code:004

For the 'Tyto Alba', a silent flyer, that hunts for rodents, bats, small birds or insects primarily by sound due to poor sight.

Voice: 'shree' scream

Once a common sight in the 30's, now a rare, spectacular & protected scene (CWA1981).

A durable outdoor/tree/wall box; now (sadly) the Elm trees are gone! A two section (easy annual cleaning!) box with inside a specific roosting space for 1-3 fledglings (Owlets).

All directional entrance, 'barred' platform for wing training & to stop dropping out.

Height: 4-6m (& low disturbance). Use 1" floor bedding (to scrape) inside.

£117.50

Tawny Owl Box Code:005

The 'Strix Aluco', a strictly territorial bird, more accustomed to humans, a relation which 4,000 years old.

Voice: male 'oe'; (response) female 'uit'

A vertical pyramid shaped owl box with 'predator safe' top.

This box can roost min. 6 chickens depending on its supply (i.e. 50% vole's).

To be hung at 4-6m height in a tree.

Usable after filling it 4" off forest bedding; which the female (only) scrape's before season starts.

Approved by a member of the BTO (British Trust of Ornithology).

£117.50

Kestrel Box Code:006

For the 'Falco', falcon family. These birds are well adapted to human activity. They are more brown & 'hover' in their hunt for prey along (UK's) major roads.

A large rectangular shaped box with an observation hole.

The box is made entirely from slate and is provided with 'hanging' facilities.

Kestrels don't make their own nests.

£117.50

Butterfly Box 1 Code: 007

The 'Lepidoptera', a box to attract the 'European Peacock', 'Tortoiseshell' and others.

A triangle box, with a STAR shaped entrance, is to improve your flower garden through insect pollination.

Provided with a sliding bottom to open and add the internal roosting material; twigs and some damp soil.

To attract them by scent/chemical signals, the butterfly feeds itself with the nectar of fruits, sodium, salt & minerals (even sweat!). Simply take an apple and crush it; mix it with (1") soil. The apple will start to rot/ferment (no smell) and attract them.

£29.50

Butterfly Box 2 Code:008

Butterflies are small insects, respecting, building & defending their territories. Similar to Box 1 (Code 007), but with a violin 'F-key' shaped entrance.

The stems provide the butterfly 'sunbathing' power before lift off.

To attract the butterfly; see code

007. £29.50

Bee Box Code:009

The 'Apoidea' / 'Megachilidea' are solitary bees and in rapid, major decline!

Alfalfa Leaf Cutter Bee, Mason Bee; both through carrying 'scopa' on their body, also called 'Jelly-bellies', are very beneficial and for some plants 'crucial'. (Honey Bees pollinate by baskets; 'corbicula')

Another 'cosmopolitan' box to pollinate your flower garden by bees, insects, in their search for cavities, constructing nests with plant hairs.

The triangle box is filled with pieces of old natural tree trunk material (untreated) and drilled holes (especially for the Leaf Cutter). Hung on a wall, it will also attract the Masonry Bee.

£29.50

Bat Box Code:010

The 'Chiroptera' (means 'hand+wing'). Most common *Pipistrelle* in open country (grass areas), the *Daubenton* near water and *Noctule* in hedgerows, woods.

Bats are good pollinators, seed dispensers for flora introduction. A triangle box, with a small rectangular 'fly-in' opening in the bottom and a back wall provided with 'climbing' grooves for the bat to make it to the top.

A 'recuperation' box, as hibernation will always take place in cosy attics or trees; the box needs to be hung high in trees/walls just under the gutter/roofline.

Promoting bats; plant night-time flowers to attract moths.

£29.50

Hedgehog Dome Code:011

The 'Erinaceinae' (folk name: *Urchin*)

Named after its habitual area (hedge) and pig like snout (hog) and one of the oldest mammals on Earth; when Dinosaurs were common!

The Dome is made in two separable sections; a top slate dome sits on a bottom + entrance (for predator protection) also of reclaimed slate. Easy for inspection & annual cleaning. Fill the bottom with 1" duvet 'hand shredded' paper.

£117.50

Birdtable TableVersion Code:012

Height: 30-35cm/12-14"

Diameter: 40cm/16"

Suitable Table Food: Sunflower hearts with oil/protein; all year, raisins, oat & (smashed) maize. (from tit to pheasant).

An Octagon shaped table; full slate top & plateau; centre pole made of an old tree trunk (with 'natural' visual variation; subject to availability).

Suitable for all seasons and moderate severe weather conditions; stable & extremely durable.

£94.50

Birdtable Hanging (code013H)

Diameter: 40cm/16"

Similar to the Table version but now hanging, on a 12mm natural rope with pre-split 'eye'.

£ 114.50

Similar to the Table Version but on a separate wooden pole and has a base plate, which can be attached to or into the ground. The height of the pole is

optional. From £ 114.50

Birdtable MediumSize Code: 014

Diameter: 55cm/22"

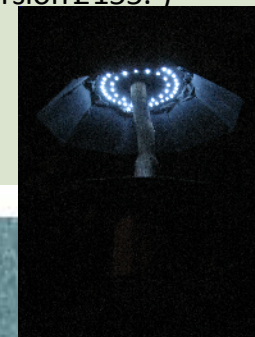

Similar to the small tables but 9 sided and with three trunks to support the canope. Can be mounted on a separate 'large' trunk as a pole (also available with led lights).

£ 195.- (pole/base £ 270.- (+L350))

Solar Powered Birdtable 012(013)

inside, which will lit up at night. It gives a nice and gentle glow to your garden/path.

£175.- (Hangingversion £155.-)

BirdTable Commissioned:Code:015

Height: 75cm/29.5"

Diameter: 77cm/30"

A large, two story, full slate bird table, on four (reclaimed) wooden supporting pillars.

Central feeding section.

Special Pole Support for positioning at high places & wind/gale proof (up to force 10).

£ 575.-

Bird Bath Code: 022

Wet birds have difficulty in flying away; position it in a 'predator safe' situation with an all around bird visibility.

An octagon bath with a shallow & sloped bottom to provide a zero to safe gradual depth; to avoid bird drowning & sediments dirty particles.

An overall edge to 'dry' and auto-overflow possibility to guarantee a max. water depth. Bottom provisions are made to attach it to a pedestal, support or pole.

With (Code 022A or without 022B) a small roof to 'guard' the bird whilst pondering & wet feathers.

£147.50 (with roof) on pole £177.50

£130.- (without roof)

Apple/Fatball Holder Code: 016

Apple-Summer: It will attract birds as well as butterflies e.g. insects.

Fat ball-Winter: Popular by many birds.

Two solid pieces of slate holding an apple in its centre to provide nutritious food.

Easy (re-)fill able; both pieces swivel open, making a scissor movement, simply pierce the apple and close; the triangle holds its shape/apple by weight and far beyond the 'inner core' stage.

£19.50 - in gift box

Diamond Mesh Feeder Code: 017

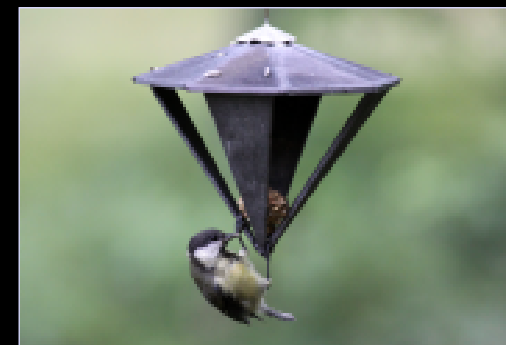

Suitable Mesh Food; peanuts (high energy content), or fruity particles (large & small). The mesh prevents smaller birds from choking on larger peanut parts.

Used by all kind of small birds like tits, siskins and finches, as well as woodpeckers.

With the semi-loose lid makes this an easy refill feeder, without the need of (re-) moving it. The feeder can be fixed to the wall or hung on a string in a tree.

In squirrel active areas; only on a string, away from climbing areas and/or using a distance bar (Code 051).

£19.50

Fatball Hanger Code: 018

Diameter: Width 19cm/7.5"

Our new, improved, the 'bird friendly' fat ball hanger; no need for 'netted' fat balls; cheaper. Just drop in the fat ball and it will stay there even when it reduces in size till it is completely finished. This size opening will attract small birds only. Small sized birds will even take shelter inside. On the top, a small, old piece of 'gutter' lead, in the shape of a crown.

£29.50

Horizontal/Vertical

Mesh Feeder Code: 019

An easy to fill feeder (self-closing lid) which can be hung Horizontal or Vertical; birds are very agile and show acrobatic performances.

With the help of an L-shaped bar (Code 051), it will be Squirrel Proof (sold separately).

£19.50

Window (Seed) Feeder Code: 020

IS&N's most popular product; initially designed for education; to observe at close proximity (0.5m / 1.5') small birds; now for every age - young & old-enthusiast; from farm kitchen to retiring flat at the 1st floor! Suitable Seed Food; from Nyjer seed, *Finch/Siskin*, to sunflower hearts, mealworms for *Tit, Robin, Sparrow, Blackbird*. A pyramid shaped feeder from solid pieces of slate; its angulated shape is designed towards an optimal view of the 'visiting' bird, independent from the observers' position. Stable hanging (no vibration/sounds), wind reliable & window remains clean during all seasons. Instant positioning & No tools needed! (You only have to make sure your window is clean. **As seen in 'Escape to the**

Squirrel Feeder Code: 021

The '*Sciuridae*' family has a 'sharp' nose for hidden food; according to experts, squirrels are spending 60-80% of their active time on foraging and feeding (less 25% by modern humans).

BUT, the Red, fails the superior spatial memory (not retracing food) over its Grey partner and is ENDANGERED.

Suitable Squirrel Food; from nuts, seeds, conifer cones, fruits, fungi to green vegetation. Depending of availability sometimes insects.

The fully slated squirrel box is provided with a platform and easy moveable lid especially accommodating the 'pinching' behaviour of the squirrel.

The box can be hung in a tree/against any rough wall; climbing is their profession.

Re-filling is very easy.

Remark: It is best to keep 'own food storage' air tightly sealed, as they will find it!

£29.50

FluffyHolder Code:023

In urban areas where natural insulation & constructing material is less easy available, i.e. towns, this fluffy wool helps birds insulating & constructing their cup nests.

A triangle shaped hanger, made out of solid slate, is easy (re-)fill able; it swivels open, making a scissor movement, and keeps/holds the fluff on the teetted inside when closed.

£17.50
